

Beat the heat
this summer!

Dynasty

Dynasty

When things start heating up, you can start cooling down in a new CORNELIUS above ground pool. Enjoy a refreshing swim, day or night in privacy and comfort. Entertain family and friends and enjoy all the best summer has to offer with a CORNELIUS pool.

Constructed tough yet easy to own

If you want to beat the heat this summer, there's no better way to cool the sizzle than in a **DYNASTY** pool from **CORNELIUS**.

Designed and built to the highest standards in the industry, the 52" **DYNASTY** is carefully crafted to provide years of problem-free enjoyment. Three components form the solid, integrated structure of the **DYNASTY**—the wall, frame and sub-frame.

The first component is a heavy gauge steel wall, which is hot-dip galvanized and covered with "Weatherizer" paint coating for additional protection. A decorative wall patterning is applied over this surface. A further layer of our tough "Krystal Kote"® coating seals off weather elements and pool chemicals. Lastly, a convenient wide mouth skimmer cut out is incorporated.

The sturdy **DYNASTY** khaki colored pool frame consists of a wide, 8-inch extruded resin ledge, coupled with a 7-inch extruded resin post and topped with a three-piece injection molded resin cap and post collar.

Form Fitting Support Cap

A-Brace Option

SIZES (Feet)

Round	A-Brace Oval	NBS II Oval
12'	12' x 18'	10' x 16'
15'	12' x 24'	10' x 21'
18'	16' x 26'	12' x 18'
21'	16' x 32'	12' x 24'
24'	18' x 33'	16' x 26'
27'	18' x 38'	16' x 32'
30'	18' x 44'	18' x 33'
33'		18' x 38'
		18' x 44'

The sub-frame features a strong, extruded resin bottom track with injection molded resin lower post collar and bottom connector. With the addition of one of our many colorful liner designs, you're set to enjoy a superior pool for years of worry free family fun.

Simple and easy installation

As many **CORNELIUS** pool owners have discovered, if you can use a screwdriver, you can assemble your own **CORNELIUS** pool. No multi-sized washers or nuts are used. We've simplified assembly with just one large screw type for all the pool elements. And we supply easy to follow, step-by-step instructions as well as a helpful video.

Pick the size and shape that's best for you

Whatever size of property you have, there's a **DYNASTY** pool to fit your yard and your budget. Choose from a wide variety of Round, A-Brace Ovals or NBS II and NBS II EXP Ovals and beat the heat this summer!
